

Participants Information Sheet

Please take some time to read this information and ask questions if anything is unclear.
Contact details can be found at the end of this document.

What is 3rd MCAST Energy Day Conference?

The 3rd MCAST Energy Day is the third conference in the series of the MCAST Energy Research Group (MCAST Energy) events. This year the conference will focus on the microgrid and PV integration research themes and is supported by the 3DMicroGrid and JUMP2Excel projects. The conference aims to disseminate the 3DMicroGrid projects results and encourage debate on the specialised topics. The activity is mainly knowledge transfer and networking while delivering talks from eminent speakers who are working in the field.

Why have I been chosen?

Your participation and contribution are important to this event, and we would like to share further content with you for communication purposes.

Do I have to take part?

Participation is voluntary and you may ask organiser of study questions before agreeing to participate. If you agree to participate, you will be asked to sign a consent form or indicate your agreement online. However, at any time, you are free to withdraw from the activity and if you choose to withdraw, we will not ask you to give any reasons.

What will happen to me if I take part?

We will interact with you (e.g. interview you or ask you to fill in online forms or filming or photography) about your views of the activity of the conference and for dissemination purposes. The information you provide us will be recorded and used as input into the projects.

What are the possible benefits of participating?

The conference will result in enhanced knowledge and skill sets which in turn reflect the positive development of Malta knowledge economy including its ambition as a regional energy hub, solar country and blockchain state. By attending this event you may have access to knowledge gain activities supported by world-excellent advanced partners. There is no remuneration on your participation.

What are the possible risks of taking part?

There are no possible risks during taking part of this activity. At any time you can choose to withdraw.

What will happen to the results of the conference?

The organisers will use data collected in all activities for publications and publicly available documents. No personally identifiable information from you will be used, unless you have agreed to this. However, by entering in this conference, you are hereby consent to all such as filming and to unrestricted transmission of any resulting content.

What happens at the end of the conference?

The data and publications may remain publicly available.

What about use of the data in the project?

If you agree to participate in this conference, the research may be used by other organisers researchers and regulatory authorities for future research and project purposes.

What should I do if I have any concerns or complaints?

If you have any concerns about this activity, please speak to the project manager Renata Mikalauskiene on renata.mikalauskiene@mcast.edu.mt, who should acknowledge your concerns within ten (10) working days and give you an indication of how your concern will be addressed.
